

# VWALAA! MOBILE PAY

## TURN YOUR MOBILE DEVICE INTO AN INSTANT REVENUE GENERATOR

**Are you a mobile merchant who accepts payments? Vwalaa! Mobile Pay is just the ticket. Quickly and securely accept payments, review customer data, email receipts, track transactions, and much more – all through your mobile device.**

### Payments that Go Wherever You Go

Instantly transform your mobile device into a payment terminal with Vwalaa! Mobile Pay. As a robust payments engine, Vwalaa! is compatible with over 100+ leading mobile devices, including the popular Android and iOS phones/tablets.

### Multiple Benefits - One Solution

- Full payment capabilities plus debit, voids, refunds, signature capture and tax & tip calculator
- Compact card reader plugs into your phone and enables swiped Interchange rates
- Receipts are emailed to your merchants providing an instant marketing database
- Customized receipts to include your name, website address, logo and a personal message
- Create and define your own private inventory items for quick, itemized sales
- Offline processing capabilities to protect against lost wireless connectivity
- No more manual batching - Vwalaa! automatically settles your batches daily

### Simple Activation

Quick and easy activation - simply download our Vwalaa! Mobile Pay application from your app store, receive an activation email within minutes, and Vwalaa! - you're ready to take payments.

### Interactive Online Portal

Through your easy-to-use Vwalaa! merchant portal, you can instantly view live transaction data and detailed reports sortable by date, payment type and amount. Plus, manage refunds, and customize your receipts to include your name, logo and website address.

Your merchant portal is accessible from any PC, Smartphone or Tablet with an active Internet connection and all current Desktop and Mobile Internet browsers.

**Sleek compact solution:**

- Secure sign on
- Easy to use
- Transaction history
- Interactive merchant portal
- Emailed receipts
- Automatic batching with no merchant intervention
